1. TEXT

This document is a LaTeX template for paper submission to the SISC Conference. All works must be in English. You must follow these guidelines as closely as possible so that the Proceedings are in standard SISC format.

An easy way to comply with the format requirements for your paper is to use this document as a template and follow the graphic instructions. Please submit your paper in Portable Document Format (PDF).¹ (see the corresponding instructions below about footnotes)

This section must consist of no more than 3000 words. Tables/images/figures and captions are not included in the word count. Please use 12-point Arial font for the text in this section.

This template can be used to format your paper and to style your text. All margins, line spaces, and text fonts have already been set in this template; please do not alter them.
