 <https://sites.google.com/unimib.it/pasquero>

ORCID: 0000-0002-2211-7977

Spoken languages Italian, French, English

Current position Associate Professor

EDUCATION AND TRAINING

2001 PhD in Fluid dynamics, Politecnico di Torino, IT

1996 Laurea degree in Physics, University of Torino, IT (*110/110 Summa cum Laude*)

APPOINTMENTS

2021-2022 Invited Visiting Professor, Ecole Normale Supérieure, Paris, FR (6 weeks)

3-4/2018 Invited Visiting Researcher, Harvard University, Cambridge, MA, USA (2 months)

Since 2011 Associate professor, Department of Earth and Environmental Sciences, Univ. Milano - Bicocca, IT

2009-2020 Associate researcher, Institute of Atmospheric Sciences and Climate, CNR, IT

2006-2010 Assistant professor, Department of Earth System Sciences, Univ. of California, Irvine, CA, USA

2004-2006 Senior Research fellow, California Institute of Technology, Pasadena, CA, USA

2003-2005 Invited Visiting Assistant Professor, University of California, Los Angeles, CA, USA (3 x 3 months)

2002-2003 Post-doc, Institute of Atmospheric Sciences and Climate, CNR

2001 Post-doc, Weizmann Institute, Rehovot, Israel

TEACHING ACTIVITIES

Summary

Instructor for classes of Geophysics, Physical Oceanography, Atmospheric Physics, Physics of Climate, Atmospheric and Oceanic Dynamics, Earth System Physics, Ocean Monitoring and Data Analysis, Communication of Climate Change (undergraduate, master, and PhD levels) at Univ. Milano Bicocca, UCLA, Caltech. Excellent scores in student evaluations of teaching activities.

Instructor for summer schools (USSP Summer School “Past Global Change Reconstruction and Modelling Techniques”, Urbino, Italy; “The fluid dynamics of climate”, CISM, Udine)

Advisor for 5 post-docs, 9 PhD students, 15 master thesis, 18 undergrad thesis. External member of PhD committee for 10 PhD students (Norway, USA, France, Italy).

Classes

A.A. 2023/2024

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (6 CFU), Scuola di Scienze, Università di Milano, Bicocca.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca.
- Docente dell'insegnamento *Communication of Climate Change* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (1 CFU), Università di Milano, Bicocca.
- Docente dell'insegnamento *Ocean Monitoring and Data Analysis* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (3CFU), Scuola di Scienze, Università di Milano, Bicocca.

A.A. 2022/2023

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (6 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 9.29/10.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 8.73/10.
- Docente dell'insegnamento *Climate Journal Club* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (2 CFU), Università di Milano, Bicocca.
- Docente dell'insegnamento *Ocean Monitoring and Data Analysis* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (3CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 10/10

A.A. 2021/2022

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (6 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 9.01/10.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 8.83/10.
- Docente dell'insegnamento *Ocean Monitoring and Data Analysis* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (3.5CFU), Scuola di Scienze, Università di Milano, Bicocca.

A.A. 2020/2021

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (6 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 9.1/10.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 9.04/10.
- Docente dell'insegnamento *Ocean Monitoring and Data Analysis* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (3CFU), Scuola di Scienze, Università di Milano, Bicocca.

A.A. 2019/2020

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (6 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 9.18/10.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 9.29/10.
- Docente dell'insegnamento *Climate Journal Club* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (2 CFU), Università di Milano, Bicocca.
- Docente dell'insegnamento *Ocean Monitoring and Data Analysis* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (3CFU), Scuola di Scienze, Università di Milano, Bicocca.

A.A. 2018/2019

- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.93/3.
- Docente dell'insegnamento *Laboratorio di Fisica 1* (4 CFU), Corso di **Laurea in Fisica**, Università di Milano, Bicocca. Valutazione: 2.6/3.
- Docente dell'insegnamento *Climate Journal Club* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (2 CFU), Università di Milano, Bicocca.
- Docente dell'insegnamento *Climatologia* (2 CFU), Corsi di **Master in Gestione delle Risorse Idriche nella Cooperazione Internazionale**, Università di Milano, Bicocca.
- Docente dell'insegnamento *Meteorologia e Climatologia* (1 CFU), Corsi di **Master in Comunicazione Scientifica**, Università di Milano, Bicocca.

A.A. 2017/2018

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (8 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.5/3.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.66/3.
- Docente dell'insegnamento *Climate Journal Club* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (2 CFU), Università di Milano, Bicocca.
- Docente dell'insegnamento *Climatologia* (2 CFU), Corsi di **Master** in Gestione delle Risorse Idriche nella Cooperazione Internazionale, Università di Milano, Bicocca.
- Docente dell'insegnamento *Meteorologia e Climatologia* (1 CFU), Corsi di **Master** in Comunicazione Scientifica, Università di Milano, Bicocca.

A.A. 2016/2017

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (8 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.49/3.
- Docente dell'insegnamento *Physics of the Sea* nell'ambito del Corso di **Laurea Magistrale in Marine Sciences** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.79/3.
- Docente dell'insegnamento *Climate Journal Club* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (2 CFU), Università di Milano, Bicocca.
- Docente dell'insegnamento *Climatologia* (2 CFU), Corsi di **Master** in Gestione delle Risorse Idriche nella Cooperazione Internazionale, Università di Milano, Bicocca.

A.A. 2015/2016

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (8 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.57/3.
- Docente dell'insegnamento *Oceanografia Fisica* nell'ambito del Corso di **Laurea Magistrale in Scienze e tecnologie Geologiche** (6CFU), Scuola di Scienze, Università di Milano, Bicocca.
- Docente dell'insegnamento *Extreme climatic events* nell'ambito del Corso di **Dottorato in Scienze Ambientali, Geologiche e Chimiche** (1 CFU), Università di Milano, Bicocca.

A.A. 2014/2015

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (8 CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.48/3.
- Docente dell'insegnamento *Fisica dell'Atmosfera e dell'Oceano* nell'ambito del Corso di **Laurea Magistrale in Scienze e tecnologie Geologiche** (6CFU), Scuola di Scienze, Università di Milano, Bicocca. Valutazione: 2.7/3.

A.A. 2012/2013

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze e Tecnologie Geologiche** (8 CFU), Scuola di Scienze, Università di Milano, Bicocca.
- Docente dell'insegnamento *Fisica dell'Atmosfera e dell'Oceano* nell'ambito del Corso di **Laurea Magistrale in Scienze e tecnologie Geologiche** (6CFU), Scuola di Scienze, Università di Milano, Bicocca.

A.A. 2011/2012

- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze Geologiche e Geotecnologiche** (8 CFU), Facoltà di Scienze MMFFNN, Università di Milano, Bicocca.

A.A. 2008/2009

- Docente dell'insegnamento *Ocean Dynamics* nell'ambito del Corso di **Dottorato in Earth System Science** (PhD degree), School of Physical Sciences, University of California, Irvine. Valutazione: 3.83/4.
- Docente dell'insegnamento *Physical Oceanography* nell'ambito del Corso di **Laurea in Earth System Science** (BS degree), School of Physical Sciences, University of California, Irvine. Valutazione: 3.53/4.
- Docente dell'insegnamento *Geofisica* nell'ambito del Corso di **Laurea in Scienze Geologiche e Geotecnologiche** (5 CFU), Facoltà di Scienze MMFFNN, Università di Milano, Bicocca.

A.A. 2007/2008

- Docente dell'insegnamento *Atmospheric Dynamics* nell'ambito del Corso di **Dottorato in Earth System Science** (PhD degree), School of Physical Sciences, University of California, Irvine. Valutazione: 3.80/4.
- Docente dell'insegnamento *Physical Oceanography* nell'ambito del Corso di **Laurea in Earth System Science** (BS degree), School of Physical Sciences, University of California, Irvine. Valutazione: 3.75/4.
- Docente dell'insegnamento *Earth System Physics* nell'ambito del Corso di **Dottorato in Earth System Science** (PhD degree), School of Physical Sciences, University of California, Irvine. Valutazione: 3.81/4.

A.A. 2006/2007

- Docente dell'insegnamento *Earth's Atmosphere* nell'ambito del Corso di **Laurea in Earth System Science** (BS degree), School of Physical Sciences, University of California, Irvine. Valutazione: 3.77/4.

A.A. 2005/2006

- Docente dell'insegnamento *Atmospheric and Oceanic Transport* nell'ambito del Corso di **Dottorato in Geological and Planetary Sciences** (PhD degree), California Institute of Technology.

A.A. 2004/2005

- Docente dell'insegnamento *Introduction to Physical Oceanography* nell'ambito del Corso di **Laurea in Atmospheric and Ocean Sciences** (BS degree), University of California, Los Angeles.

A.A. 2003/2004

- Docente dell'insegnamento *Introduction to Physical Oceanography* nell'ambito del Corso di **Laurea in Atmospheric and Ocean Sciences** (BS degree), University of California, Los Angeles.
- Docente dell'insegnamento *Fisica dell'Atmosfera* nell'ambito del Corso di **Master in Esperti in idrometeorologia e in metodi e tecniche per le osservazioni della Terra - COS(o)T**, Università di Genova e della Basilicata.

A.A. 2002/2003

- Docente dell'insegnamento *Introduction to Physical Oceanography* nell'ambito del Corso di Laurea in *Atmospheric and Ocean Sciences* (BS degree), University of California, Los Angeles.

Supervisor

Assegnisti di ricerca post-doc: Hossein Hassantabar (2024-); Matteo Borgnino (2021-); Agostino N. Meroni (2021-); Fabien Desbiolles (2020-2022); Francesco Ragone (2016-2018)
Borsisti: Iman Goudarzi (2024-); Paolo Bassi (2020).

PhD thesis advisor

Relatrice delle seguenti tesi di dottorato:

- *TBD*, Alice Guccione, UniMiB (2024-)
- *Intensification rate of tropical cyclones*, Andrea Davin, UniMiB (2023-)
- *A Sub-mesoscale Study of Shallow Convective Circulation and Trade-cumuli in the North-West Atlantic Tropical Region*, Lorenzo F. Davoli, UniMiB (2023-)
- *Convective precipitation in a changing climate*, Lisa Bernini, UniGe (2022-)
- *Extratropical climate variability: Longitudinal characterization of mid- and high- latitude interactions* Alice Portal, UniMiB (2019-2023)
- *Effects of aerosols on orographic precipitations* Anna Napoli, UniGe (2018-2022)
- *Extreme meteorological events in the Alpine region* Mostafa E. Hamouda, UniMiB (2017-2021)
- *Ocean circulation in the Maldivian Archipelago* Chiara De Falco, UniMiB (2017-2021)
- *Interactions between the ocean and extreme meteorological events*, Agostino Niyonkuru Meroni, PhD program in Marine Sciences, UniMiB (2014-2017).
- *Impacts of High-Wind Events on the Variability of Upper-Ocean Heat Content*, Wei Mei, PhD degree in Earth System Science, University of California, Irvine (2007-2012).

Master thesis advisor

Relatrice delle tesi di Laurea Magistrale:

- *Studio di eventi meteorologici estremi nell'area Alpina da dati di downscaling dinamico di rianalisi*, Dario Russo, Scienze e Tecnologie Geologiche, UniMiB (2024)
- *Global extreme precipitation change in relation to altitude and urbanization*, Alice Guccione, Fisica, UniMiB (2024)
- *Analysis of climate change signatures on intense precipitation events and extreme winds in the Alpine region (GAR*, Cristina Iacomino, Fisica, Univ. Roma Tre (2023)
- *Intensification mechanisms of tropical cyclones*, Andrea Polesello, Fisica, UniMiB (2023)
- Influence of sea surface temperature spatial variability on tropical cyclone intensification, *Lisa Bernini, Université de Marseille, France* (2022).
- Microplastic fate modeling: parametrization of the main processes affecting plastic debris in the ocean and their integration in the PaTATO toolbox, *Lorena Calò, Marine Sciences, UNIMIB* (2021).
- The role of volcanism in climate change over the past 800,00 years, *Luca Castrogiovanni, Scienze e Tecnologie Geologiche, UniMiB* (2021).
- Multi-year analysis of snowfall types in Marquette, Michigan: a differentiation between synoptic snow events and Lake Effect Snow events impacted by the presence of Lake Superior, *Roberto Piemontese, Scienze e Tecnologie Geologiche, UniMiB* (2020).
- Orographic precipitation in the Alps: analysis of rain gauge data and atmospheric model output, *Anna Napoli, Fisica, UniMi* (2018)
- Mechanism of heat accumulation and release in the deep glacial ocean, *Chiara De Falco, Fisica, UniMI* (2017),
- Criteri di identificazione dei Medicane: cicloni di tipo tropicale nel Mar Mediterraneo, *Monica Mariotti, Scienze e Tecnologie per l'Ambiente e il Territorio, UniMiB* (2017),
- Valutazione del tasso di scioglimento degli iceberg nel Nord Atlantico, *Michela Rampazzo, Scienze e Tecnologie Geologiche, UniMiB* (2015),
- Upper Ocean dynamical response to intense cyclonic winds, *Agostino Meroni, Fisica, UniMiB* (2014),
- Effects of submesoscale dynamics on the marine ecosystem, *Hiusuet Kung, Master degree in Earth System Science, University of California, Irvine* (2010).
- Crittografia quantistica: protocolli e loro efficienza., *Eva Filoromo, Facoltà di Scienze MMFFNN, Università di Torino* (2002, co-relatore con il Prof. Giovannini).

Laurea thesis advisor

- *Esperimenti con vasca rotante per la didattica dell'oceanografia fisica*, Alessia Cordoni, Fisica, UniMiB (2023)
- *Studio della relazione tra tasso di intensificazione degli uragani e temperature oceaniche nel Pacifico Occidentale*, Valentina Vitale, Scienze e Tecnologie Geologiche, UniMiB (2021)
- *Analisi della variabilità della pressione barometrica sui flussi d'aria in entrata e in uscita da un pozzo d'acqua a Sangano (TO)*, Emanuele Grimaldi, Scienze e Tecnologie Geologiche, UniMiB (2021)
- *Studio della relazione tra tasso di intensificazione degli uragani e temperature oceaniche*, Stefania Barbarossa, Scienze e Tecnologie Geologiche, UniMiB (2020)
- *Effetti della temperatura oceanica sul vento nello strato limite atmosferico*, Maria Alberti, Scienze e Tecnologie Geologiche, UniMiB (2020)
- *Effetti delle correnti oceaniche sul vento superficiale*, Teseo Tosi, Scienze e Tecnologie Geologiche, UniMiB (2020)
- *Studio climatologico delle relazioni tra temperatura superficiale oceanica e venti superficiali*, Tiziano Marchesi, Scienze e Tecnologie Geologiche, UniMiB (2019)
- *Sea surface temperature and winds in the Mediterranean: investigation of a two-way interaction*, Michele Giurato, Fisica, UniMiB (2018)
- *Analisi delle precipitazioni orografiche in relazione alla quota: studio da dati pluviometrici nelle Alpi, nell'Himalaya e nelle Montagne Rocciose*, Andrea Arrighi, Scienze e Tecnologie Geologiche, UniMiB (2018)
- *Comparison between three models of glacial – interglacial cycles*, Arianna Olivelli, Scienze e Tecnologie Geologiche, UniMiB (2017)
- *Criteri di identificazione dei Medicane – i cicloni di tipo tropicale in ambiente Mediterraneo*, Michele Provera, Scienze e Tecnologie Geologiche, UniMiB (2017)
- *Convective Motion of the Mantle*, Simone Jovanovic, Scienze e Tecnologie Geologiche, UniMiB (2017)
- *Studio della variabilità dei venti superficiali nell'area Mediterranea a partire dai dati di rianalisi atmosferica ERA-Interim*, Elisa Terenghi, Fisica, UniMiB (2016).
- *Variabilità dei venti nella regione Mediterranea*, Luca Santagostini, Scienze Ambientali, UniMiB (2016).
- *Analisi osservativa dell'uragano mediterraneo Qendresa II/Vega*, Matteo Bargna, Scienze e Tecnologie Geologiche, UniMiB (2015).
- *Sea surface height response to strong winds in the Mediterranean*, Anna Napoli, Fisica, UniMiB (2015).
- *Extreme wind events over the Mediterranean Sea*, Andrea Meli, Fisica, UniMiB (2014).
- *Effetti del calore geotermico sul bilancio energetico oceanico*, Giacomo Redondi, Scienze e Tecnologie Geologiche, UniMiB (2014).

HONORS, AWARDS and RECOGNITIONS

- 2024 Invited fellowship to participate to the TROPICANA program at Institute Pascal, Paris Saclay
- Since 2022 Associate editor for *Earth System Dynamics* - Elsevier
- 2021 Invited fellowship to participate to the Program "Machine Learning and the Physics of Climate", KAVLI Institute for Theoretical Physics, California, USA (2 months, *declined*)
- 2021 Invited Professorship at Department of Geosciences, Ecole Normale Supérieure, Paris, FR (6 weeks)
- 2021 The paper "A breakdown of the link between Arctic and North Atlantic Oscillations in warm climate projections" published on Nature Climate Change was presented on Nature Reviews Earth and Environment in the section "Research Highlights".
- 2020 AGU 2019 Editors' Citation for Excellence in Refereeing, Geophysical Research Letters
- 2020 *Distinguished referee* for The European Physical Journal, Springer
- Since 2018 ESA Mission Advisory Group member, for Earth Explorer X Candidate Mission "Harmony"
- 2019-2026 Italian Alternate Delegate for the International Union of Geodesy and Geophysics
- 2018 National habilitation to Full Professor in Geophysics
- 2018 Invited fellowship at Earth and Planetary Sciences, Harvard University, USA (2 months)
- 2012 The paper "The effect of translation speed on the intensity of tropical cyclones over the tropical ocean" published on GRL was presented on EOS in the section "Research spotlight: highlighting exciting new research from AGU journals".

- 2008 Invited fellowship to participate to the Program "Physics of Climate", KAVLI Institute for Theoretical Physics, California, USA (1 month)
- 2007 Invited Professorship at Center for Climate System Research, University of Tokyo (3 months, *declined*)
- 2006-2012 Member of the Atmospheric and Oceanic Fluid Dynamics Committee of the American Meteorological Society
- 2004 The paper "Effects of a Wind-Driven Gyre on Thermohaline Circulation Variability" published in Journal of Physical Oceanography was presented on the Bulletin of the American Meteorological Society in the section "Papers of note".
- 2003 Winner of the "young investigator research grant", ISAC-CNR
- 2001 Individual post-doctoral Feinberg fellowship recipient, Weizmann Institute, Israel
- 1998-1999 Fellowship recipient for participation to the Woods Hole Summer Program in Geophysical Fluid Dynamics (twice, 10 weeks each)
- Travel grants to attend schools and conferences (Erasmus, TAO study center, Les Houches School, IUGG, ...)
- Invited / keynote speaker at over 50 international conferences and universities (including MIT, Harvard, Columbia Univ., UCLA, Univ. Hawaii, NASA JPL, Ecole Normale Paris)
- Reviewer/panelist for US NSF (Physical Oceanography, Biological Oceanography, Atmospheric Science, Mathematical Geophysics), for Israeli Science Foundation, for Italian ANVUR, and for over 30 international ISI journals.

GRANTS and PROJECTS

- 2023-2025 PRIN-PNRR Project "LocCLIMA: Impact of LOCal conditions on the change of Italian microCLIMAtes", PI, Euro 239,923
- 2023-2025 PRIN Project "ICREN: Intense Convective Rainfall Events Nowcasting", co-I, Euro 242,438
- 2021-2023 ESA Climate Change Initiative Research "GLAUCO: Global and Local Atmospheric response to the Underlying Coupled Ocean", PI, Euro 59,000, recipient: A.N. Meroni*
- 2020-2023 ESA Science Studies Phase 0-A "Mission performance" and "Data Utilization" for EE10 Candidate Mission "Harmony", Euro 130,000.
- 2020-2023 "EUREC4A-OA: Elucidating the role of the ocean meso and submesoscale in air-sea interactions and in the related exchanges of heat, carbon, oxygen, water and momentum in cloud formation and their overall impact in the climate system", JPI Climate and Oceans, PI for the Italian component, Euro 192,000
- 2020-2024 MedCyclones COST Action on Mediterranean Cyclones
- 2018-2021 "Submesoscale air-sea interactions" HPC-TRES for Climate Science, PI, Euro 60,000
- 2017-2020 "EXTRA: Extreme rains in the Alps", Fondazione Cariplo, PI, Euro 100,000
- 2012-2016 MIUR "RITMARE" project, WP leader, Euro 70,000
- 2008-2010 US NSF "International Conference on Mathematical Geophysics: Student and Early Career Scientist support", Euro 66,000

RESEARCH ACTIVITIES

Research interests

Mesoscale and submesoscale ocean structures. Interactions between ocean dynamics and marine ecosystems. Air-sea interactions. Extreme weather events such as tropical(-like) cyclones, heavy rainfalls, strong winds. Climate modes of variability. Effects of aerosols on meteo-climatic conditions.

Methodologies to investigate those topics include analysis of observational data, both from in situ and remote measurements, inverse modelling, ocean, atmosphere, and Earth system models of different complexity, both local, regional, and global.

EUREC4A
2020-2024

International collaboration. We participated to the field campaign onboard of the RV Atalante in January-February 2020, in the Northwest Tropical Atlantic, and in the subsequent modelling study, with the overall goal of understanding the role of fine-scale processes in internal ocean dynamics and air-sea interaction. Tasks: documentation of the daily cycle and mapping and quantification of different terms of the air-sea fluxes and their impacts on the marine atmospheric boundary-layer water budget, in an area largely affected by Amazon river outflow, North Brazil current, and several eddies. Main collaboration with ENS, Paris, and French CNRS. Coordination of the Italian Partners (UniMiB and CIMA Foundation).

WHIRLS
2023-2029

International collaboration. We participate to the field campaign that will be held in 2025 in the Agulhas Current System to study fine-scale ocean processes and explore their impact on climate, marine biogeochemistry and biodiversity. We will collect data from the ship using drones to measure marine boundary layer properties. Main collaboration with ENS, Paris. Participant.

Air-sea interactions in tropical cyclones

International collaboration. Currently the main collaboration on this theme is with Prof. Caroline Muller, ISTA. Our task is to study the intensification of tropical cyclones and the processes that affect it. We use satellite data, high resolution modelling (both in idealised settings, with SAM, and from large global projects such as Dyamond), and reanalysis data. The two research group (UniMiB and ISTA) currently co-advice 3 PhD students on this theme.

Mediterranean Cyclones
2020-2024

Within the COST action MedCyclones (European network for Mediterranean Cyclones in weather and climate), we use reanalysis and modelling data to characterise tropical-like cyclones in the Mediterranean region. We also contribute to the international effort on the creation of a best track dataset for Mediterranean cyclones in historical data and in CMIP datasets. Participant.

ESA Earth Explorer X

Member of mission advisory group for ESA Earth Explorer X Harmony mission, to be launched in 2029. I have been the presenter at ESA selection meetings for the air-sea interactions components. Tasks: demonstration of the scientific achievement that will be obtained with the new satellite observations, definition of mission requirements, observational strategies (temporal and spatial localisation of observations). Participant.

Extreme precipitations

International collaboration. We currently collaborate with different groups, mainly at Ecole Normale Supérieure, Paris, and with different Italian institutes (PoliTO, PoliMI, ISAC CNR, UniTO, UniMI, CIMA) to study extreme precipitations in a changing climate. Tasks: document the effects of surface conditions (land use, sea surface temperature fronts, orographic features) on heavy precipitations and their changes, use a suite of dynamical and neural network algorithms to obtain reliable precipitations in regions with complex orography. PI and co-PI on different related grants.

Communication of climate change

Development of effective communication paradigms for climate change. Development of hands on experiments for students and young people in schools, public exhibitions, shows. Collaboration with authors, writers, actors to design and test the paradigms. I am the scientific director of Planetaria Festival (www.planetariafestival.it).
